

WEB TIME CHART

AMIG Systems' Web Time Chart software package is designed to add timetables and subject lists to your school internet or intranet web site.

Web Time Chart publishes daily and weekly timetables, for teachers, students and rooms, onto web pages. It also publishes subject lists and roll class lists. The information used is drawn from your current timetable in network Time Chart. Web pages are included, ready for you to add to your own website. The manual includes full installation instructions. Details are also provided to help you tailor the web pages to suit the style

Using Network Time Chart Data

Web Time Chart works with live data from our timetabling software, Network Time Chart. When you make timetable or student changes in Time Chart, Web Time Chart uses your latest information to build the timetables and lists for your web site. Note that Web Time Chart works from your school data but does not change it.

Flexible Teacher Access

- Teachers have access to teacher, room and student timetables
- View any subject list or roll class list of students
- Drop down list shows available students
- Supervisor sets how students are shown
- Each subject, teacher or room code in a timetable is a link. Click on a subject code to see a student list for that subject. Click on a room code to see its timetable.
- Hover over a code to see its full name. e.g. hover to see the full subject name.
- See which subjects you are taking, then click to see the students in a subject
- 22 web pages supplied to add to your website
- Full details of how to alter the pages to suite the style of your website.

Easy Student Access

- Students or their parents can view their own timetable
- Selection by Student ID to ensure privacy
- View at home via Internet
- Daily timetable shows teacher or room changes (from Time Chart Extra)

Student Photos

- Add your student images to show with student timetables
- Supervisor sets image position and size
- Images shown with teacher access
- Add your own thumbnail images to show with subject lists
- Print subject list or roll class with each student image

ALL THIS FOR ONLY \$565
